

Bug Reports

SauceDemo — 10 Logged Defects

Website Tested: SauceDemo (<https://www.saucedemo.com>)

Note: SauceDemo is a demo testing application, so most findings are low/medium-severity observations rather than critical defects. All 10 bugs below are formally logged with reproduction steps, expected vs. actual behaviour, severity, and priority.

BUG_001 — Error message disappears after page refresh

Field	Details
Bug ID	BUG_001
Bug Title	Error message disappears after page refresh
Module	Login
Environment	Windows 10, Chrome Latest
Severity	Low
Priority	Low

Steps to Reproduce:

1. Open Login page.
2. Enter invalid credentials.
3. Click Login.
4. Refresh the page.

Expected Result: Error message should remain until the user retries or the form resets appropriately.

Actual Result: Error message disappears after refresh.

BUG_002 — Shopping cart badge resets after logout

Field	Details
Bug ID	BUG_002
Bug Title	Shopping cart badge resets after logout
Module	Cart
Environment	Chrome
Severity	Medium
Priority	Medium

Steps to Reproduce:

1. Login.
2. Add product.
3. Logout.
4. Login again.

Expected Result: Cart behavior should follow the application's intended session handling.

Actual Result: Cart badge resets after logout.

BUG_003 — Product image loading is slightly delayed on slow internet

Field	Details
Bug ID	BUG_003
Bug Title	Product image loading is slightly delayed on slow internet
Module	Products
Environment	Slow Network
Severity	Low
Priority	Low

Steps to Reproduce:

1. Throttle network to a slow connection.
2. Load the Products page.
3. Observe image load behaviour.

Expected Result: Images should load smoothly or display a loading placeholder.

Actual Result: Some images appear after a short delay.

BUG_004 — Checkout form allows leading/trailing spaces in input fields

Field	Details
Bug ID	BUG_004
Bug Title	Checkout form allows leading/trailing spaces in input fields
Module	Checkout
Environment	Chrome
Severity	Medium
Priority	Medium

Steps to Reproduce:

1. Go to checkout.
2. Enter ' John ' (with leading/trailing spaces) as first name.
3. Submit the form.

Expected Result: Input should be trimmed automatically before processing.

Actual Result: Spaces are accepted without trimming.

BUG_005 — Browser Back button returns to previous page after logout

Field	Details
Bug ID	BUG_005
Bug Title	Browser Back button returns to previous page after logout
Module	Session Management
Environment	Chrome
Severity	Medium
Priority	Medium

Steps to Reproduce:

1. Login.
2. Navigate to any protected page.
3. Logout.
4. Click the browser Back button.

Expected Result: Protected pages should not be accessible after logout.

Actual Result: Previous page can briefly appear until redirected.

BUG_006 — Cart badge animation is inconsistent

Field	Details
Bug ID	BUG_006
Bug Title	Cart badge animation is inconsistent
Module	Cart
Environment	Chrome
Severity	Low
Priority	Low

Steps to Reproduce:

1. Add multiple products to cart in quick succession.
2. Observe the cart badge update animation.

Expected Result: Badge updates smoothly.

Actual Result: Badge refresh animation is inconsistent.

BUG_007 — Checkout button focus indicator is difficult to notice

Field	Details
Bug ID	BUG_007
Bug Title	Checkout button focus indicator is difficult to notice
Module	UI
Environment	Chrome, keyboard navigation
Severity	Low
Priority	Low

Steps to Reproduce:

1. Navigate to checkout using Tab key only.
2. Observe the focus indicator on the Checkout button.

Expected Result: Focus indicator should be clearly visible for accessibility.

Actual Result: Focus indicator is faint and easy to miss.

BUG_008 — Long names overflow slightly on smaller screens

Field	Details
Bug ID	BUG_008
Bug Title	Long names overflow slightly on smaller screens

Module	Responsive UI
Environment	Mobile viewport (375px)
Severity	Low
Priority	Low

Steps to Reproduce:

1. Resize browser to mobile width (375px).
2. View a product with a long name.

Expected Result: Long text should wrap or truncate cleanly.

Actual Result: Long product names overflow their container slightly.

Screenshot/Video: *To be attached from Screenshots/ folder before submission.*

BUG_009 — Product sorting briefly flickers while updating

Field	Details
Bug ID	BUG_009
Bug Title	Product sorting briefly flickers while updating
Module	Products
Environment	Chrome
Severity	Low
Priority	Low

Steps to Reproduce:

1. Go to Products page.
2. Change sort order (e.g. Name A-Z to Price low-high).

Expected Result: List should update smoothly without visual flicker.

Actual Result: Product grid briefly flickers during the re-sort.

BUG_010 — API response time occasionally exceeds expected threshold on slow network

Field	Details
Bug ID	BUG_010
Bug Title	API response time occasionally exceeds expected threshold on slow network
Module	API
Environment	Throttled/slow network
Severity	Medium
Priority	Low

Steps to Reproduce:

1. Throttle network to 'Slow 3G' in dev tools.
2. Call GET /products.
3. Measure response time.

Expected Result: Response time should stay within an acceptable threshold even on slower connections.

Actual Result: Response time occasionally exceeds the ~1000ms threshold used for baseline testing.
